## BRINGING THINGS TO LIFE!

Alice meets lots of very unusual creatures during her travels. She meets characters from nursery rhymes, talking animals, talking flowers and talking food, as well as other objects that can move and speak!

She also meets characters based on idiomatic expressions (see the 'Making Characters from Idioms' worksheet in the Wordplay resources).

**What kinds of objects are shown here? What kind of food is this?**

## TASK:

Can you make an object – a stone, or a sponge – into a character? The challenge is to find a way to make it stand up!

Or,

Use these photographs of fruit and vegetables and make them into people by adding arms and legs and facial features? You could do this with collage or by drawing with a marker pen.
