PICTURING MOVEMENT

Alice often stands or sits talking to the characters she meets, but sometimes she runs from place to place. And at one point, with the Red Queen, she runs so fast she 'felt as if she would never be able to talk again'!

How can you *show* speed in images? Have a look at this Tenniel image.

How does he do it?

Do you have any other ideas?

TASK:

In Wonderland, Alice and a group of animals run a race. Tenniel shows them all standing still and talking. What animals can you spot? Can you draw them running?
